## LIP + SMILE GALLERY

Few things can age as much as our mouths. Teeth yellow, gums recede and lips lose volume, but cosmetic solutions such as filler and veneers can save the day.

### LIP ENHANCEMENT

Rochester, NY dermatologist Lesley Loss, MD injected Juvéderm Volbella into the upper and lower lips of this 22-year-old patient to enhance their shape and add volume.

This 59-year-old patient was concerned about the fine lines forming around her mouth. To reverse them, Palo Alto, CA facial plastic surgeons David Lieberman, MD and Sachin Parikh, MD performed a lip lift.

Scottsdale, AZ facial plastic surgeon Kelly Bomer, MD injected Juvéderm into the top and bottom lips of this 52-year-old patient to give her the fuller lips that she desired.

To improve the asymmetry of this 28-year-old patient's lips, Greenwich, CT dermatologist Kim Nichols, MD performed a "lip flip" procedure using Botox Cosmetic, off-label, along with Juvéderm to add volume.

Unhappy with her thin, uneven lips, this 29-year-old patient sought New York dermatologist Jody Levine, MD for a natural-looking enhancement, which was achieved using Restylane.

West Palm Beach, FL dermatologist Kenneth R. Beer, MD injected Restylane Silk into the top and bottom lips of this 30-year-old patient to alter their size, but not shape.

This 21-year-old patient liked the outline of her lips, but thought that they were too thin. Nashville, TN dermatologist Jill Fichtel, MD added subtle fullness with Revanesse Versa, off-label.
